Every Movement Begins with Someone Saying, "I'll Help."

Every community is stronger when people choose to show up—for their neighbors, their patients, their colleagues, and one another. Civic participation doesn't always begin with a large event or a major campaign. More often, it begins with one conversation, one act of service, or one person deciding to get involved.

That's the idea behind **1,000 Caring Voices**.

Healthcare workers, patients, caregivers, students, and community members are among the most trusted voices in our communities. When those voices come together, they can strengthen civic participation, improve health, and help build communities where everyone has the opportunity to thrive.

Whether you're taking your very first training or already leading in your community, there's a place for you in this movement.

One Movement. Three Ways to Grow.

Whether you're just beginning your civic health journey or already making an impact in your community, the **1,000 Caring Voices Champion Tier Program**

Every Champion starts with **Spark**, can grow into **Active**, and has the opportunity to become a **Lead Champion** by helping others get involved. Move at your own pace—we'll be here to support you every step of the way.

Every step forward unlocks new opportunities to learn, lead, and be recognized.

Spark Champion: Start Here

Every Champion's journey begins with one simple step: showing up.

By completing your first Champion training, you'll become a **Spark Champion**—joining a growing community of people committed to strengthening civic participation and improving community health.

As a Spark Champion, you'll receive your digital certificate, unlock access to Champion resources, be added to our growing national Champion Map, and soon be able to share your Champion badge with your network. Most importantly, you'll become part of a movement that believes every voice has the power to make a difference.

Active Champion: Transform Training Into Action

Becoming an **Active Champion** is where learning becomes impact.

By completing community actions and sharing your experiences through an impact report, you'll help strengthen civic participation where it matters most—in your own community. Whether you're registering voters, leading a conversation, volunteering at a community event, or encouraging others to get involved, every action helps build momentum.

As an Active Champion, you'll be featured on our growing national Champion Map, become eligible for Champion spotlights in our newsletter and on social media, and help inspire others to join the movement.

Lead Champion: Grow the Movement

Lead Champions help transform individual action into lasting community impact.

Whether you're hosting a community event, mentoring a fellow Champion, or encouraging others to get involved, you're helping expand a national movement rooted in civic participation and healthier communities. Leadership isn't about doing everything yourself—it's about inspiring others to take their first step.

As a Lead Champion, you'll have opportunities to connect with civic and community leaders, participate in speaking engagements, and help shape the future of the 1,000 Caring Voices movement.

What Does a Champion Actually Do?

Every Champion's journey looks a little different.

Some complete a training and share what they learned with coworkers.

Others help register voters, host community conversations, volunteer locally, write letters to elected officials, or encourage neighbors to participate in civic life.

Some go on to mentor new Champions or organize events in their communities.

Every action counts.

Whether your contribution is one conversation or one community event, you're helping strengthen civic participation—and healthier communities—one step at a time.
